COAT OF ARMS

The **Three Hearts** represent the three races which, in 1961 when the University started, were segregated in the colonial system of education. Today, it symbolises the common aim of parents, teachers and students in the educational process of Strathmore.

The **Lion** is the symbol of strength and courage and of the determined fight for excellence and justice. It also represents Kenya, the country Strathmore was founded in, which like many African countries strives boldly to attain all the qualities mentioned above.

The **Motto** "*Ut omnes unum sint*" is Latin. It is a quotation from a passage of the Gospel (John 17:21), and means "That all may be one".

The **Rose** in full bloom represents love, the source of all good desires and actions, even if at times this means loving sacrifice, as represented by the thorns.

(Azure) Sky blue means high ideals, high aims.

(Gules) Blood red means sacrifice, love, fortitude.

(Gold) Gold means eternity, perfection.

OUR VISION AND MISSION

Our Vision

To be a leading, people-centred, entrepreneurial university positively impacting society by doing excellent work.

Our Mission

To transform society through holistic value based education, research and innovation in an atmosphere of freedom and responsibility.

OUR VALUES

Our values help create a culture where our students and staff feel supported, valued, respected and inspired. Our eight core values form the acronym **SELF – SPEC**.

SELF relates to the individual's relationship with oneself. Strathmore University's values must begin with SELF. Each staff member and student must strive to support the mission of the University.

SPEC relates to the individual's relationships with others. Each staff member and student must strive to espouse values that cultivate healthy relationships with others.

SERVICE TO SOCIETY

We serve society through research, education and institutional citizenship.

SUBSIDIARITY

We seek to provide solutions at the most immediate level to a need.

EXCELLENCE

Through sanctification of work, we strive for work excellence and the highest-quality output.

PERSONALISED ATTENTION

We seek to provide an environment where all our stakeholders can receive individualised and customised service and support.

LIFELONG LEARNING

We serve society through research, education and institutional citizenship.

ETHICAL PRACTICE

We honour the beliefs, morals and values of the academic profession and help others to do the same.

FREEDOM AND RESPONSIBILITY

We respect the freedom of the individual person and acknowledge that with freedom comes responsibility.

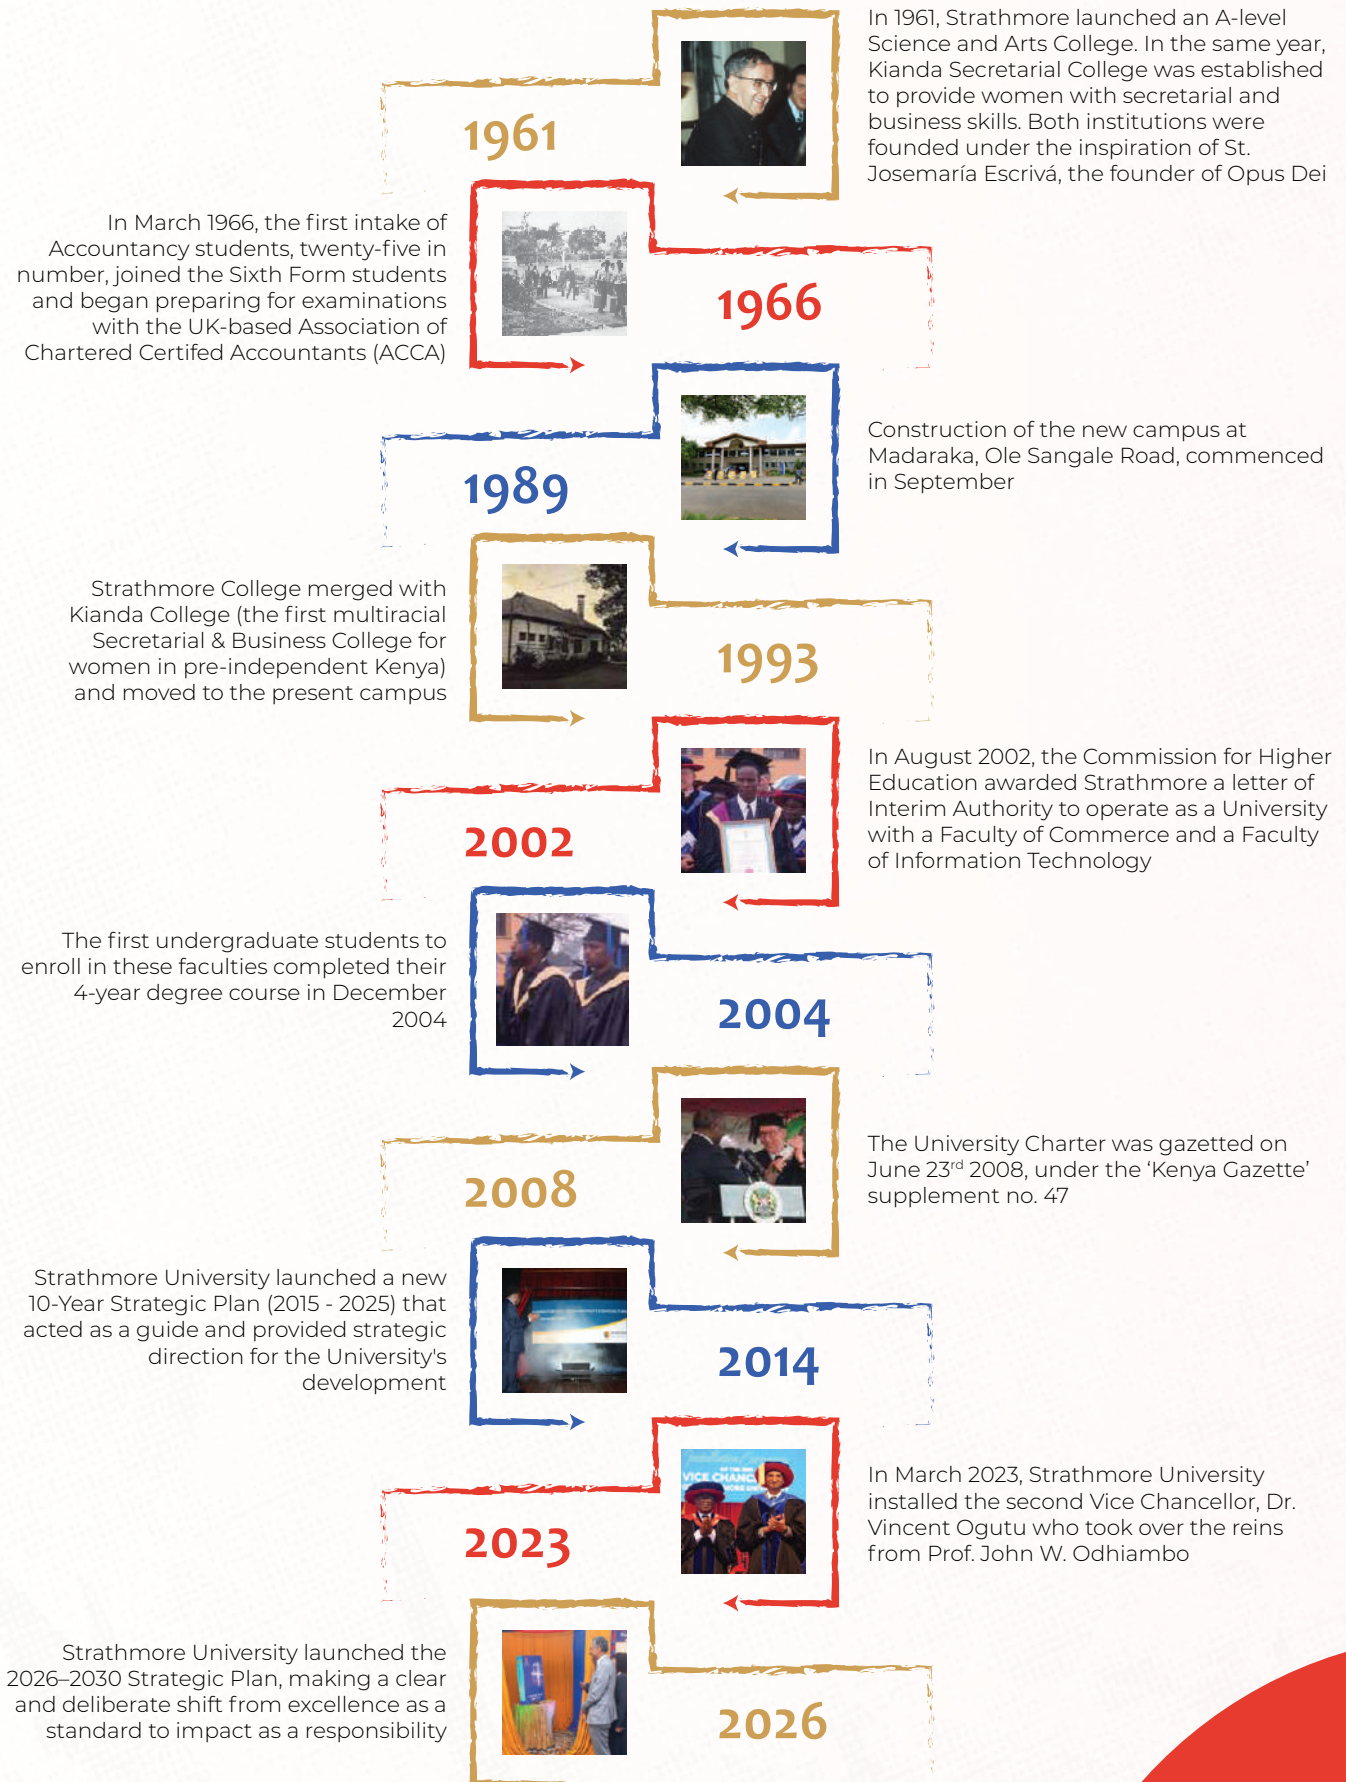

COLLEGIALITY

We respect one another's commitment to a common purpose and work together to meet the needs of our clients.

THEME OF THE YEAR 2026

Personalised Attention

BECAUSE WE CARE

In keeping with the University tradition of allowing each theme to guide us over time, this year, we chose Personalised Attention. It continues to shape how we learn, work, and relate to one another. This emphasis invites a deeper way of engaging, one that values presence, intentionality, and care in every interaction. As philosopher Simone Weil reminds us, *"To pay attention is the rarest and purest form of generosity."* This spirit of attentive presence calls us to see, listen, and serve one another more meaningfully, in every role and at every level.

What began as a seed has grown into something more than a slogan or a campaign. Personalised Attention is becoming a way of being, steady, instinctive, and unmistakable. It moves from intention to action, from words to a lived culture. As St. John Paul II expressed, every person is singular, unique, and unrepeatable. This understanding challenges us to encounter each other with respect, empathy, and genuine care.

As an institution of higher learning, Strathmore is committed to forming people fully, humanly, and deeply. Personalised Attention is the lens through which this formation becomes real. It is found in a conversation after class, a thoughtful response to a parent, an extra moment guiding a visitor, or a quiet willingness to support a colleague. These small, often unseen acts shape character and leave a lasting impact on the lives we touch.

At its heart, Personalised Attention is about creating a community where people feel seen, valued, and supported. When we listen with intention, respond with kindness, and act with care, we build a University culture rooted in dignity and connection. May this spirit continue to define our shared journey, one where personalised attention is not simply spoken about, but experienced in every hallway, classroom, office, and interaction.

"To pay attention is the rarest and purest form of generosity."

Simone Weil

GRADUATE SPEAKER

VALEDICTORIAN SPEECH

2 0 2 6 G R A D U A T I O N

First and foremost, I would like to thank my parents for their tireless sacrifice in educating me. I also extend my gratitude to the university staff for their unwavering commitment to academic excellence, and to God, without whom none of this would have been possible.

I stand here as a testament of what hard work, passion and perseverance can yield. Bracing long nights, countless hours of gruelling work and potential mental breakdown. But this victory is not just mine. It is ours to share.

Being a student of the first engineering cohort, this moment is special for me. I went to Strathmore School; I played in the Kevin O'Byrne Rugby tournament as a student, I coached students in the Kevin O'Byrne tournament as an assistant teacher; and now I am graduating, as the valedictorian, from a course championed by Kevin O'Byrne. Kevin was a structural engineer who left Ireland to come to Kenya as a high school teacher. For a man who was precise in thought and disciplined in craft, many knew him not for his work in helping to shape Nairobi Sky Lines, but for his enduring passion for building people and shaping how they think. And I could not be more proud to have gone through a system Kevin inspired, which continues to mould tomorrow's thinkers.

During my time here at Strathmore, I have devoted much of my life to leadership. Having served in various capacities, I continue to draw inspiration and mentorship from the many great leaders who have come before me. SCESA (Strathmore Computing and Engineering Student Association), a student club I served as president, is near and dear to my heart. I learnt a great deal about people, systems, negotiation and of course, the daunting school politics and bureaucracy.

But life has not been without its ups and downs. I, like many of my colleagues, went through a great deal of personal turmoil and heartache to be here before you today. Being the first engineering cohort, the going could not have been harder. No ChatGPT, 9 units in one semester, and the icing on the cake, our professors still expected office-hours-quality answers to homework that Google couldn't even find. Personally, nothing quite prepares you for life like having 2 exes from the same class. But that is what moments are made of!

But through the storm, we braced, we held tight, we marched on, we fought the good fight, and today we claim the prize. Some are leaving here today with degrees, others with more than degrees, maybe a business partner, heck, maybe even a wife or a husband. You made it to the finish line, and because of that, you are my hero.

Alvin Nyandeje

**Bachelor of Science in Electrical and
Electronics Engineering**

As I finish this speech, I want to invite you, my dear colleagues, to commit to one simple thing: Do your best. We are stepping into an era dominated by AI, machine learning, and rapid, unpredictable technological shifts. It's easy to feel anxious or even overwhelmed by the sheer scale of the unknown. But there is a quiet, incredible beauty in that anxiety. None of us can truly predict what the world will look like 20, 30, or 40 years from now. We can either shrink back and let the uncertainty paralyse us, or we can choose to adapt, grow, and bring our absolute best to every challenge that comes our way. When you consistently give your best, the unknown stops being a threat; it becomes an arena of endless possibility. It becomes an invitation to push past our boundaries and redefine what's possible. Seated in this graduation square today may be a future president, a world-leading scientist, or an iconic artist. Who knows! But whatever path you walk, remember that brilliance is built through gradual, unrelenting effort. As the Japanese would put it: Kaizen!

I may not know much, but in all my life, the bulk of which I have spent in the Strathmore system, I have learnt that genuine friendship is one of the best assets you can have. I had the privilege of a few, and I am grateful for them. I hope you, too, had that privilege. I have also learnt that courage in the face of challenges is what life will, at times, ask of you before it changes your life for the better. I am a living testament to that.

Yes, I am part of the first cohort of Electrical Engineering at Strathmore University. But I cannot end this speech without appreciating all of you, our fellow graduands, who shared this compound with us and with whom we will always share a name: Class of 2026.

I leave you with my favourite quote: if all else is lost, just do your best.

Thank you.

UNIVERSITY COUNCIL CHAIR'S | SPEECH

TO THE CLASS OF 2026

Every graduation marks the end of one journey and the beginning of another. It is a day of celebration, but it is also a day of reflection. It is a moment when a university pauses to ask whether it has fulfilled its highest calling, not simply to educate minds, but to shape lives.

Today, we celebrate each one of you who graduates from Strathmore University. We celebrate your determination, your resilience and your perseverance. Every degree that will be conferred this morning represents years of hard work, countless hours of study, moments of uncertainty overcome, and the courage to keep moving forward.

On behalf of the University Council, I extend my heartfelt congratulations to every member of the Class of 2026. This is your achievement, and you should be immensely proud of it. I also wish to recognise those whose support has made this day possible.

To parents, guardians and families, today is your day as well. Behind every graduate is a story of quiet sacrifice, of early mornings, late nights, financial commitments, words of encouragement, prayers, patience and unwavering belief.

Long before these graduates believed fully in themselves, many of you believed in them first. Today, this celebration belongs to you as much as it belongs to them.

My dear graduates, as you leave Strathmore today, you carry with you a qualification that will undoubtedly open doors and create opportunities. Yet I hope you leave with something even more valuable: A deeper understanding of why education matters.

A university does far more than award degrees. It develops the capacity to think critically, to act ethically and to lead responsibly. It reminds us that knowledge without integrity is incomplete, and that success without purpose is ultimately unfulfilling.

Since its founding, Strathmore University has remained steadfast in its mission to form men and women of competence, character and service. Those three values are not simply words that appear in our publications. They define who we are, and they continue to shape every generation of graduates who leave this University.

Competence enables us to excel. Character enables others to trust us. Service gives meaning to both. These values are perhaps more important today than ever before.

Mrs. Bernadette Musundi

We live in extraordinary times. Artificial Intelligence is transforming industries. Technology is changing the way we work, communicate and solve problems. Entire professions are evolving at remarkable speed. Yet amid all this change, one truth remains constant: our future will always depend as much on the quality of our character as on the depth of our knowledge.

The world does not simply need more intelligent people. It needs ethical leaders. It needs professionals who exercise wisdom alongside expertise. It needs men and women who understand that leadership is not about position or status, but about responsibility.

That responsibility is especially significant for Africa. Our continent is rich in talent, creativity and potential. According to the African Development Bank, the continent is home to about 400 million young people between the ages of 15 and 35. Yet UNESCO data show that only about 9% are enrolled in higher education, compared with the global average of 40%. This is not just a statistic; it represents millions of young people who may never access higher education.

Every graduate seated before me today represents an extraordinary opportunity, not only for personal success, but for national and continental transformation.

That is why education is never merely a personal achievement. It is a public trust. It is an investment made by families, educators, communities and society itself, in the hope that those who receive it will use their knowledge to improve the lives of others.

As a university, this understanding continually challenges us to ask an important question: not simply, "What are we good at?" but also, "What are we good for?" That question is shaping the next chapter of Strathmore University.

Academic excellence will always remain at the heart of who we are. But excellence finds its highest purpose only when it serves society and especially when our teaching, research and innovation help solve real problems, strengthen institutions, create opportunities and improve lives.

This vision is reflected in the continued growth of our University. In April this year, the University marked a significant milestone with the groundbreaking ceremony of the new STEM Complex, a transformative initiative that reflects our long-term commitment to advancing research, innovation, and future-ready learning.

It is far more than a new building. It is an investment in the future. It is a place where tomorrow's scientists, engineers, innovators and entrepreneurs will discover new ideas, develop practical solutions and help shape the future of Kenya, Africa and the wider world.

Above all, it reminds us that universities are ultimately measured not by the buildings they construct, but by the people they inspire and the lives they transform.

To our alumni, benefactors, development partners and friends of the University, thank you for your continued confidence in Strathmore. Your partnership strengthens our mission and expands our impact.

We warmly invite you to continue walking this journey with us as we prepare future generations of ethical leaders.

Graduates, allow me to leave you with one final thought. As you leave this campus today, remember that the degree you receive is more than recognition for work completed. It is an expression of trust. Trust that you will use your knowledge with wisdom. Trust that you will lead with integrity. Trust that you will use your talents in the service of others. Trust that you will stand for what is right, even when it is difficult. Trust that you will leave every organisation, every community and every nation you become part of, better than you found it.

The world does not simply need more successful people. It needs people whose success creates opportunities for others. People whose influence builds trust. People whose leadership inspires hope. People whose lives leave a lasting legacy. That, I believe, is the true purpose of a Strathmore education.

Before I conclude, allow me to express my sincere gratitude to our Vice-Chancellor, the Management Board, members of faculty and staff for their dedication and commitment to this University. Thank you to our parents and guardians for the trust you have placed in us, and to our alumni, partners and benefactors for your steadfast support of our mission.

And now, to the Graduating Class of 2026: go into the world with confidence. Pursue excellence without compromising your integrity. Be courageous enough to do what is right. And wherever life takes you, remember that the true measure of success is not simply what you achieve, but the difference you make in the lives of others.

Congratulations, Class of 2026.

May God bless each one of you.

And may God continue to bless Strathmore University.

Thank you.

"The world does not simply need more intelligent people. It needs ethical leaders. It needs professionals who exercise wisdom alongside expertise."

VICE CHANCELLOR'S SPEECH

TO THE CLASS OF 2026

Distinguished guests, faculty, parents, and, most importantly, the Graduating Class of 2026;

Every graduation is a celebration of individual achievement. But every graduation is also a statement about the future of a nation. Today, as Strathmore University awards diplomas and confers degrees upon the Class of 2026, we do more than celebrate academic success. We present to society women and men who have been prepared to think rigorously, to lead ethically, and to serve generously.

Universities do not merely produce graduates. They shape the quality of leadership a society will one day depend upon. That is why this occasion matters; not only to your families, but to Kenya, to Africa, and indeed to the wider world.

At Strathmore, we have always believed that a university exists to do more than impart knowledge. It exists to shape judgement, cultivate character and prepare men and women who will contribute meaningfully to society.

Pope Leo XIV, during his first apostolic journey through Africa this year, challenged universities across the continent to rise beyond the transmission of knowledge and become places where conscience is formed, where graduates leave with degrees, integrity, courage, and a commitment to the common good.

That challenge is not abstract; it is addressed to you. Today, as you graduate, you do so in a world filled with immense possibilities and, at the same time, profound tensions. A world where knowledge is abundant, but wisdom is scarce. Where innovation accelerates, but inequality still persists. Where success is often measured by accumulation of wealth, rather than by one's contribution and impact.

And so the question is not whether you are prepared to succeed. The question is whether you are prepared to serve.

As you graduate today, you do so at a time when the world is calling for leaders who combine competence with character, innovation with integrity, and ambition with service. At Strathmore, our newly launched Strategic Plan 2026–2030 renews our commitment to nurturing precisely these qualities, guided by a simple but profound conviction: that excellence alone is no longer enough. The true measure of a university is not only what it teaches, but the difference it makes in society.

Dr. Vincent Ogotu

These priorities are the environment in which future generations of Strathmore students will continue to be formed. As members of the Class of 2026, you now carry forward the values that have long defined this University. Wherever your journey leads, may you be known not only for what you accomplish, but for the lives you touch, the integrity you uphold, and the positive change you inspire.

Class of 2026, you are a cohort that has studied during a season of extraordinary change. With the rapid rise of Artificial intelligence and shifting global economic realities, conversations on sustainability and ethical leadership; the world has become increasingly interconnected. While technological advancements are on the rise, we are reminded that the values that sustain a university don't change.

Today, we celebrate 2157 graduates. Each of you has a story of discipline, sacrifice, and growth. Among you are pioneers. Trailblazers. History-makers.

During your time at Strathmore, you have seen your University continue to expand its contribution to society. This year, we proudly celebrate the first graduating class of the Bachelor of Science in Electrical and Electronics Engineering, opening a new chapter in engineering education and innovation.

Your fellow students have demonstrated that innovation knows no boundaries. Teams from this graduating class have earned international recognition through moot competitions, innovation challenges and Hackathons, proving that ideas conceived in our classrooms can compete confidently on the global stage.

Our researchers continue to influence public policy, strengthen healthcare systems and advance sustainable energy solutions. These are not simply achievements to celebrate; they are reminders that universities exist to shape society.

But let me also speak plainly. There will be temptations. Temptations to cut corners. To choose convenience over conviction. To pursue success at the expense of others.

In those moments, remember this. Your greatest qualification is not your degree. It is your character. Carry with you the discipline of excellence. Carry with you the courage to stand for what is right. Carry with you the humility to listen, to learn, and to grow.

In the end, your degree will certify your competence and open doors. But your character will determine what you do when those doors open and the legacy you will leave behind.

To the parents and guardians: thank you for your trust, your sacrifice, and your unwavering belief. This achievement is yours as much as it is theirs.

To our faculty and staff: thank you for forming, mentoring, and walking alongside our students throughout their journey, often beyond the classroom, often unseen, but always impactful.

And to you, Class of 2026: go out and build wisely. And above all, live ethically. The true measure of your education will not be what you achieve for yourself but what, through you, the world becomes.

Congratulations, and may your journey ahead be as meaningful as it is successful.

“Our researchers continue to influence public policy, strengthen healthcare systems and advance sustainable energy solutions. These are reminders that universities exist to shape society.”

PRO CHANCELLOR'S SPEECH

TO THE CLASS OF 2026

Dear Graduating Class of 2026,

Congratulations, and welcome to the Graduation Square. Today closes one chapter and opens another, on the back of years of work that were not always easy or visible, but were never wasted.

We are living out the second year of a theme that has quietly shaped much of what happens on this campus: Personalised Attention. It is a theme that speaks to something at the heart of what Strathmore has always tried to be — not simply a place that trains professionals, but one committed to educating the whole person, recognising the dignity, potential and uniqueness of every individual.

Saint Josemaría himself insisted on this decades before it became a line on any university brochure. When he encouraged the founding of one of the very first schools formed in his spirit, in the early 1950s, he asked that teachers speak personally with each student every two weeks — an idea unheard of at the time. He believed that real, personal friendship is what “creates in others a hunger for God” (Christ is Passing By, 149). I have found this true in the smallest ways: a lecturer who remembers the question you asked weeks ago, a classmate who waits for the real answer. None of these moments cost much, yet in a world that moves fast and treats people as categories, they cost more than we readily admit.

There is an old image worth carrying with you: the shepherd who knows each of his sheep. We know that anyone can manage a flock. However, a good shepherd knows each by more than its place in the herd — its habits, its limp, the reason it strays. He notices the one who is missing, because he would recognise its absence even in a crowd. I hope you experienced Strathmore trying, imperfectly but genuinely, to be the kind of place that still asks after the one.

We urge you to carry that philosophy forward: see the person before the problem, lead with competence and character, and remember that lasting influence comes from serving others, not from achievement alone.

This graduation also marks milestones bigger than any one class. We celebrate Strathmore's very first Engineering cohort, alongside the Kevin O'Byrne STEM Complex, an expression of our long-term investment in science and technology for the benefit of society. We also mark the 60th anniversary of our School of Accountancy: six decades of producing ethical, globally respected professionals.

You graduate into a world being reshaped by artificial intelligence and rapid technological change. Our AHEAD Innovation Hub reflects Strathmore's commitment to the responsible, ethical application of AI across agriculture, healthcare, education and public infrastructure, in service of underserved communities. Through CIPIT, we also host the East

Rev. Dr. Silvano Ochudho

African AI Policy Hub, helping shape the governance that will determine whether such technology serves humanity well. Remain adaptable and curious, but remember that integrity, sound judgment and concern for others remain the timeless qualities of exceptional leaders. No algorithm will replace them.

Pursue excellence with humility. Measure success not only by what you achieve, but by the lives you influence and the values you uphold.

To your parents and guardians: thank you for the years of attention that made this day possible.

Graduating Class of 2026, we would love to see you stay connected to this University through our alumni community even as you carry Strathmore's values wherever life takes you. May you go on to attain, ever more fully, the ends that have always characterised this University. To do so, we count on the help of God, who will never fail us if, on our part, we seek to respond with generosity.

Thank you.

intelligence and rapid
technological change.”**

English

O God of all creation
Bless this our land and nation
Justice be our shield and defender
May we dwell in unity
Peace and liberty
Plenty be found within our borders

Let one and all arise
With hearts both strong and true
Service be our earnest endeavour
And our homeland of Kenya
Heritage and splendour
Firm may we stand to defend

Let all with one accord
In common bond united
Build this our nation together
And the glory of Kenya
The fruit of our labour
Fill every heart with thanksgiving

Ilete Baraka kwetu
Haki iwe ngao na mlinzi
Na tukae na undugu
Amani na uhuru
Raha tupate na ustawi

Amkeni ndugu zetu
Tufanye sote bidii
Nasi tujitoe kwa nguvu
Nchi yetu ya Kenya
Tunayoipenda
Tuwe tayari kuilinda

Natujenge taifa letu
Ee ndio wajibu wetu
Kenya istahili heshima
Tuungane mikono
Pamoja kazini
Kila siku tuwe na shukrani

THE EAST AFRICAN COMMUNITY ANTHEM

Ee Mungu twaomba uilinde
Jumuiya Afrika Mashariki
Tuwezeshe kuishi kwa amani
Tutimize na malengo yetu

[CHORUS]

Jumuiya Yetu sote tuilinde
Tuwajibike tuimarike
Umoja wetu ni nguzo yetu
Idumu Jumuiya yetu

Uzalendo pia mshikamano
Viwe msingi wa Umoja wetu
Natulinde Uhuru na Amani
Mila zetu na desturi zetu

Viwandani na hata mashambani
Tufanye kazi sote kwa makini
Tujitoe kwa hali na mali
Tuijenge Jumuiya bora
